

## **INVITATION: DARWIN DCoP Webinar 9 November 09:30-11:30 CET**

### **WEBINAR IN SHORT**

**What:** Presentation of three initial DARWIN guidelines and feedback gathering

**When:** Wednesday the 9<sup>th</sup> of November

**Time:** 9:30 -11:30 CET

**How:**

Join the meeting via the following link: <https://global.gotomeeting.com/join/706581517>

The link can be accessed from your computer, tablet or smartphone

To connect with Phone:

+47 21 04 30 59

Access Code: 706-581-517

Meeting ID: 706-581-517X

### **About DARWIN**

The DARWIN research project, funded under EU Horizon 2020, is focusing on improving responses to expected and unexpected crises affecting critical societal structures during disasters. To achieve this, DARWIN will develop up-to-date and effective European resilience management guidelines which will facilitate faster, more effective and highly adaptive responses to crises. This will have a direct impact on the safety of European citizens in times of crisis and disaster into the future.

### **About DARWIN DCoP Webinar**

As a member of the DARWIN Community of Practitioners (DCoP) we would highly appreciate and value your participation in the upcoming DCoP Webinar.

The objective of the webinar is to let you familiarise yourself with three examples of DARWIN resilience management guidelines, and to capture your feedback on these. You will be provided with individual presentations of the three guidelines, and will be asked to fill a short questionnaire. Comments based on your professional experience and needs will be greatly appreciated.

Your help with this exercise will be immensely helpful for the project team to assess the current fitness-for-purpose of the three guidelines, and to collect lessons learnt that will inform the subsequent formal evaluations that will take place next year in the context of the project. In return, you will have a chance to stay up to date with current relevant developments in the context of the project.

If agreeing to participate, prior to the meeting you will be provided with a copy of the guidelines, which you are kindly requested to read.

Please RSVP to this invitation by Friday 4 November by replying to:
